CELESTIAL RHYTHM

This year, Jewelmor presents the Noel collection featuring magical golden pendants. In the world of Noel, angels are bearers of enchantment, heralding the warmth, joy, and whimsy of the holidays. Each pendant is a charming sculpture, delicately fashioned by hand and conjured from a moment's fantasy. With the golden South Sea pearl at the core of each creation, the Noel collection captures the season's spirit of glee and grace. www.jewelmer.com

ART ACCENTS

Austrian jeweller Freywille's new collection playfully hints to Slavic artist Alphonse Mucha's frequent use of peacock feathers as well as his decorative, circular headpieces seen in many of his illustrations and paintings. The combination of these soft and curvy elements inspired the brand to create its first rose gold collection. The *Helena* jewellery watch, in enamel accents evoking soft-hued coloured gems, is a nod to Art Nouveau.
